# Journal of Microscopy

1974. Vol. 101 Contents and Indices

Joint Editors: B. Ralph, P. Echlin, E. R. Weibel (Stereology)

Editorial Advisory Board: G. C. Amstutz, R. Barer, A. Boyde,  
V. E. Cosslett, B. C. Cowen, M. J. Dobb, J. R. Garrett, Audrey  
M. Glauert, R. W. Horne, D. G. Murchison, T. F. Page,  
A. G. E. Pearse, P. C. Robinson, P. R. Swann, G. L'E. Turner,  
E. E. Underwood

Published for the Royal Microscopical Society  
by Blackwell Scientific Publications  
Oxford London Edinburgh Melbourne

# Journal of Microscopy

*Patron:* HER MAJESTY THE QUEEN

*Officers and Council 1974-75*

*President:* G. L'E. TURNER

*Vice-President:* A. G. E. PEARSE

*Hon. Treasurer:* B. C. COWEN

*Hon. Secretary:* P. C. ROBINSON

*Ordinary Members of Council:*

R. H. M. ALDERSON

G. A. BASSETT

J. A. CHAPMAN

D. CATLING

E. A. FOLLETT

J. R. GARRETT

D. J. GOLDSTEIN

H. LAIRD

D. G. MURCHISON

B. O. PAYNE

B. RALPH

A. W. ROBARDS

*Hon. Joint Editors:*

B. RALPH

E. R. WEIBEL (Stereology)

P. ECHLIN

*Hon. Keeper of Films:* D. J. TREVAN

*Administrator:* P. G. FLEMING

# Contents of Vol. 101

## Part 1

A. YOULE, P. J. TURNER and B. RALPH. A preliminary field-ion atom-probe investigation of competitive carbide formation in ferritic steels	1
DAN ENTINGH. Performance characteristics of a microreflectometer for measuring autoradiographic grain density	9
R. R. EXLEY, B. G. BUTTERFIELD and B. A. MEYLAN. Preparation of wood specimens for the scanning electron microscope	21
JOHN W. PROTHERO, ARNOLD TAMARIN and RUTH PICKERING. Morphometrics of living specimens. A methodology for the quantitative three-dimensional study of growing microscopic embryos	31
ELIZABETH PARSONS, BARBARA BOLE, D. J. HALL and W. D. E. THOMAS. A comparative survey of techniques for preparing plant surfaces for the scanning electron microscope	59
BEN LUNG. The preparation of small, particulate specimens by critical point drying: application for scanning electron microscopy	77
HERBERT F. HELANDER. Some observations on knife properties and sectioning mechanics during ultramicrotomy of plastic embedding media	81
<i>Short Technical Notes</i>	
ELIZABETH MEINHARD. Histoquantitation using computer data cards	95
WALTER UMRATH. Cooling bath for rapid freezing in electron microscopy	103
JOHN R. BARLOW. Preparation of tough, fibrous material for examination in the scanning electron microscope	107
Book Review	109

## Part 2

W. BAUMEISTER and M. H. HAHN. Suppression of lattice periods in vermiculite single crystal specimen supports for high resolution electron microscopy	111
ERICH SHABTACH. A method for the fabrication of thin-foil apertures for electron microscopy	121
BRENDA S. WEAKLEY. A comparison of three different electron microscopical grade glutaraldehydes used to fix ovarian tissue	127
T. A. RYDER and I. D. BOWEN. The use of X-ray microanalysis to investigate problems encountered in enzyme cytochemistry	143
W. J. WHITEHOUSE. The quantitative morphology of anisotropic trabecular bone	153
W. J. WHITEHOUSE. A stereological method for calculating internal surface areas in structures which have become anisotropic as the result of linear expansions or contractions	169

UWE B. SLEYTR and WALTER UMRATH. A simple fracturing device for obtaining complementary replicas of freeze-fractured and freeze-etched suspensions and tissue fragments	177
UWE B. SLEYTR and WALTER UMRATH. A simple device for obtaining complementary fracture planes at liquid helium temperature in the freeze-etching technique	187
STEN HELLSTRÖM and MICHAEL SJÖSTRÖM. An anti-roll plate for flattening of 'dry' ultrathin frozen sections	197
G. R. PARISH. The interpretations of freeze-etch replicas from plant cell walls	201
GUY COX and BARRIE JUNIPER. Reply to Parish	205
JOHN H. WYATT. An illumination system for specimen block knife alignment with the LKB ultratome ultramicrotome	207

### *Short Technical Notes*

KENNETH KLIPPLE and ROLAND M. BAGBY. A system for simultaneous stimulation and film-marking during cinemicrography	211
KENNETH W. THURLEY and WALTER C. MOUEL. The etching of thick Araldite-embedded sections for scanning electron microscopy	215
ELINOR R. ARBUTHNOTT. Routine collection of flat large-area sections for electron microscopy as applied to a detailed study of axon dimensions	219
B. SIMS. A simple method of preparing 1-2 $\mu\text{m}$ sections of large tissue blocks using glycol methacrylate	223
Book Review	229

### Part 3

JOSEF PODBRDSKÝ. High resolution in-focus Lorentz electron microscopy	231
D. M. WOOLLEY. Freeze-substitution: a method for the rapid arrest and chemical fixation of spermatozoa	245
A. BOYDE, P. G. T. HOWELL and S. J. JONES. Measurement of lacunar volume in bone using a stereological grid counting method evolved for the scanning electron microscope	261
H. U. RÄTZ, H. R. GNÄGI and E. R. WEIBEL. An on-line computer system for point counting stereology	267
D. A. BANKS and A. G. EGGERS. The development of a zoom macro-scope for radioactive nuclear materials	283
J. ROSTGAARD. A defect produced in low power electron micrographs by thin-foil objective apertures	291
M. G. DOBB and R. MURRAY. Towards higher resolution in electron beam sensitive specimens of biological origin	299
IRWIN J. BENDET and NABIL I. RIZK. Thermoelectric freeze-drying	311
ROBERT F. DUNN and GUENTHER W. B. PREISS. Reproducibility of electron microscope magnifications with digital display of individual lens currents	317
C. J. PEAT. A modified specimen stub for the scanning electron microscope	323

*Short Technical Notes*

M. K. LAMVIK and S. D. LIN. A new specimen mounting system for scanning electron microscopy	329
B. V. JOHANSEN. A digital modification for beam current measurements in electron microscopy	333
Book Review	335
